

AYANDA NGCAKU

Junior .NET / C# Software Developer | BSc Information Technology Student

North-West University • Potchefstroom, South Africa • 079 201 8405 • ayandangcaku12@gmail.com • [LinkedIn](#) • [GitHub](#)

PROFESSIONAL PROFILE

Dedicated third-year BSc Information Technology student at North-West University, seeking a graduate role as a Junior .NET / C# Software Developer. Proficient in C#, ASP.NET Core MVC, SQL, and Git through hands-on academic projects, including a cross-platform mobile application and a full-stack web booking system. Combines strong technical foundations in systems analysis and secure coding practices with proven communication and teamwork skills. Eager to apply a disciplined, detail-oriented approach to building reliable, well-tested software in a professional development team.

CORE COMPETENCIES & SKILLS

Key technical proficiencies:

C# (Primary Language)

ASP.NET Core MVC / Razor Pages

SQL (MySQL / SQL Server)

Git & GitHub

HTML / CSS

Java

Python

C++

Microsoft Suite (Word, Excel, PowerPoint)

Programming & Development

- Core Languages:** C# (primary), Python, C++, and Java, with experience applying each in academic projects.
- Web Development:** Building robust, data-driven web applications with ASP.NET Core MVC and Razor Pages.
- Database Design:** Writing efficient SQL queries and designing normalized relational schemas in MySQL.
- Version Control:** Managing branching, merging, and conflict resolution confidently in Git and GitHub.
- Web Fundamentals:** Solid understanding of how HTML, CSS, and RESTful APIs work together to deliver functional web solutions.
- Microsoft Suite:** Proficient in Microsoft Office (Word, Excel, PowerPoint, Outlook) for documentation, data analysis, and professional communication.

Systems Analysis & Design

- Methodologies:** Applied knowledge of Agile (Scrum/Kanban) and Waterfall software development lifecycles.
- Data Modeling:** Skilled in creating Entity-Relationship Diagrams (ERDs) and applying database normalization principles.
- Requirements Analysis:** Translating user needs into clear, actionable technical specifications.

Supporting Technical Knowledge

- Security Awareness:** Understanding of the CIA Triad, RBAC, encryption (SSL/TLS), password hashing, and the OWASP Top 10.
- Systems & Cloud:** Comfortable in Windows Server and Linux environments; familiar with core Azure, AWS, and Google Cloud services.
- Networking:** Working knowledge of the OSI/TCP-IP models, subnetting, DNS, DHCP, and routing fundamentals.

Professional Skills

- Problem-Solving:** A methodical debugging mindset, backed by strong research and troubleshooting skills.
- Communication:** Able to explain technical concepts clearly to both technical and non-technical audiences.

- **Teamwork:** Reliable collaborator in academic team projects, including stand-ups and peer code reviews.
- **Adaptability:** Committed to continuous learning through documentation and self-directed study.

PROJECT EXPERIENCE

Student Task Manager — Cross-Platform Mobile Application

Developer | 14 May 2025 – 25 May 2025

- **Technologies:** C#, Visual Studio, .NET MAUI, SQLite.
- Collaborated in a team of three to design and build a fully functional cross-platform mobile application for student task management.
- Implemented application logic and the user interface in C#, focused on a seamless and intuitive user experience.
- Designed and integrated a local database to securely store and manage application data.
- Took part in peer code reviews to maintain code quality and consistency.

NWU Gym Booking System — Full-Stack Web Application

Developer | 14 May 2025 – 30 May 2025

- **Technologies:** ASP.NET Core MVC, C#, MySQL, HTML, CSS.
- Collaborated in a team of three to build a web application enabling users to book gym appointments and view personalised booking confirmations.
- Implemented back-end logic in C# and designed the database schema, ensuring data integrity through normalization.
- Took part in peer code reviews to uphold code quality and best practices.

IT Systems Analysis & Design Project

Systems Analyst | 14 July 2025 – 01 September 2025

- Worked in a team to analyze a business problem and design a complete IT solution.
- Created Entity-Relationship Diagrams (ERDs) to model the data requirements of the proposed system.
- Applied Agile (Scrum) principles to manage the project timeline, including daily stand-ups to track progress.
- Documented functional requirements, translating user needs into actionable technical specifications.
- Used Git and GitHub to track project progress and enable collaborative access to the codebase.

EDUCATION

Bachelor of Science in Information Technology

North-West University | Expected Graduation: 2027

- **Current Year:** 3rd Year (Final Year).
- **Relevant Coursework:** Data Structures & Algorithms, Database Systems, Object-Oriented Programming (C#, Java), Network Security, Operating Systems, Web Development (ASP.NET).
- **Academic Achievements:** 84% in Business Communication and Transversal Skills; 78% in Entrepreneurial Opportunities (Problem-Solving for Managers).

PROFESSIONAL DEVELOPMENT

- **Self-Study:** Currently strengthening C# and ASP.NET Core skills through Microsoft Learn.

EXTRACURRICULAR ACTIVITIES & INTERESTS

- **Basketball:** Developed teamwork, communication, and strategic thinking, while building discipline and resilience.
- **Soccer:** Strengthened collaboration and the ability to work effectively toward shared team goals.
- **Music (Guitar & Choir):** Built discipline, creativity, and the ability to perform and collaborate within a group.
- **University Leadership:** Served in a faculty leadership structure, developing organizational, communication, and decision-making skills.
